Editor: Zunaira Qais **Administrator:** Saima Saleem

FEATURED ACTIVITIES

Motive

Care Community Resource Centre (CCRC) is engaged in the struggle to learn and teach something new all around the year. The most emphasis remained on "self-confidence". We

We inculcated a sense of self-confidence with different activities, initiatives, and doing one's own work in a mannerly way. The students participated in many activities. We were pleased to find children participating and learning positive messages from these.

- Iqbal Day
- Food Stalls
- Awareness related to weather
- Shifting to new building
- Fund Raising
- Awareness related to cleanliness

IQBAL DAY

In November we celebrated Iqbal Day. To refresh the memory of Allama Muhammad Iqbal children expressed their love and respect through various activities. Children together worked on a project, they made a sketch of the great poet and illustrated it with his poetry.

They learnt and discussed messages from his poetry and related them with moral and religious values.

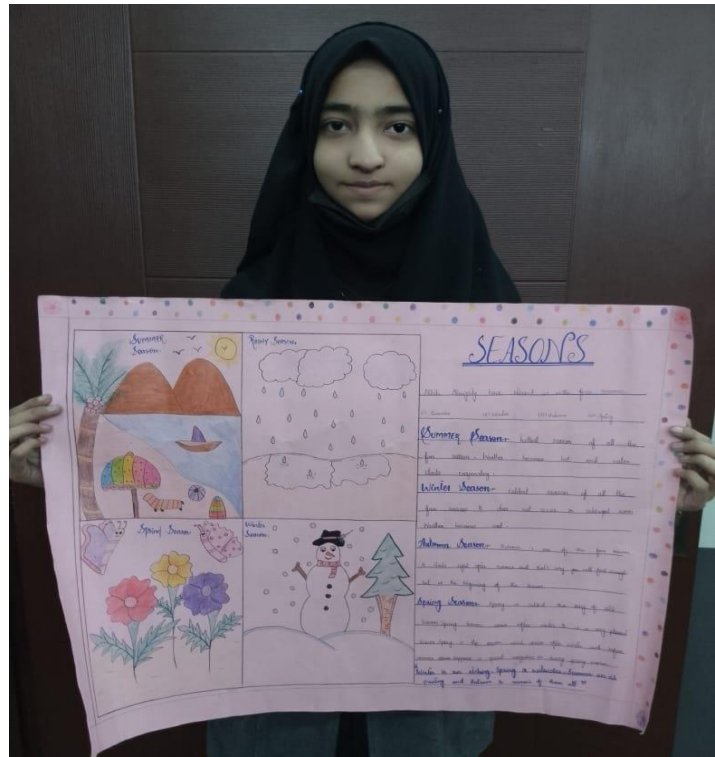

AWARENESS RELATED TO WEATHER

After Iqbal Day we made the children aware of the change of weather as it was November and the weather was changing. In this regard, we conducted a workshop for children to make them aware of the changing weather and guide them on adapting to it. A child helped us in this workshop by making

a sketch in which she clearly explained the four seasons, which made it easy for us to explain.

FUNDS RAISING

Apart from curricular and extra-curricular activities, this institution also organizes some charitable activities to evoke the spirit of helping. In this month we have collected some funds to buy wedding gifts for girls. Children from all classes participated eagerly. On top of that the administration of the institution, staff, and students frequently arrange activities to help needy people around.

I Amna from Grade 10

SHIFTING TO NEW BUILDING

The last month was very exciting for us and our students. Because after a long wait, CCRC academy was moved into a new customized school building. That is dedicated to education services only. Students eagerly participated in cleaning and moving the stuff. We found them very excited about discussing and setting up the new place.

CLEANING WORKSHOP

December was our month of awareness about cleanliness. In these practical activities, children were referred to the idea that they have a moral and religious duty to keep themselves, their houses & their neighborhood clean. They were taught that “Cleanliness is half of the faith”

Students also made illustrations to demonstrate the importance of cleanliness.

FOOD STALLS

Students of Personal Development (PD) group organized food stalls and sold food to other students. This helped them learn life based skills and they enjoyed it as well.

GOALS FOR NEXT EDITION

1. Awareness about Empathy
2. Write a paragraph about your family, the best paragraph will be published in next newsletter

QUIZ FOR NEXT PUBLICATION

1. How many minutes are in a week?
2. Who is the writer of Pakistan National Anthem?
3. Why Covid -19 is called Covid-19
4. What country has the highest life expectancy?
5. How many obligatory prayers are in a day?

⇒ **All participants with correct answer will be published in next edition.**

Next Newsletter will publish in April
